

Florida Python Challenge™ 2020 Python Bowl Datasheet

This datasheet MUST accompany each python that is turned in as part of the Python Challenge™ 2020 Python Bowl.

Participant name: _____

Phone number: _____ Email: _____

Capture date: ____ / ____ /20 Capture time: _____ AM/PM (circle one)

Trip start: _____ AM/PM Trip end: _____ AM/PM

Capture location (check one):

<input type="checkbox"/>	Everglades and Francis S. Taylor Wildlife Management Area
<input type="checkbox"/>	Holey Land Wildlife Management Area
<input type="checkbox"/>	Rotenberger Wildlife Management Area
<input type="checkbox"/>	Big Cypress Wildlife Management Area
<input type="checkbox"/>	Southern Glades Wildlife and Environmental Area
<input type="checkbox"/>	Rocky Glades Public Small Game Hunting Area
<input type="checkbox"/>	Frog Pond Public Small Game Hunting Area

Latitude: _____ Longitude: _____
(Decimal degrees preferred)

This python is to be counted towards the length and total number of snakes for (check one):

- "Pro" category
 "Rookie" category

Check all additional boxes that apply:

- I would like to have this python carcass returned to me, if possible.
- I am Active Duty United States Military. Branch _____
- I am a United States of America Veteran.

For Check-station Operator use only: Unique python ID:

Ex. MS-10-01-20-2 _____
(check station code – date submitted [DD-MM-YY] – sequential snake #)
